

STATE OF CALIFORNIA

# DUTY STATEMENT

CEC-004 (Revised 8/2022)

**Classification:** Program and Project Supervisor, Public Utilities Commission

**Working Title:** Building Performance and Metrics Unit Supervisor

**Position Number:** 535-420-3504-XXX

**Division/Branch:** Efficiency/Existing Buildings

**Collective Bargaining Identifier (CBID):** S09

**Work Week Group (WWG):** E

**Effective Date:** January 19, 2024

**Conflict of Interest (COI):**  Yes  No

If yes, this position is responsible for making or participating in the making of governmental decisions that may potentially have a material effect on personal financial interests. The appointee is required to complete Form 700 within 30 days of appointment, which identifies pertinent personal financial information.

## Job Description

Under the general direction of the Program Manager of the Existing Buildings Branch, the incumbent has full supervisory responsibility for the most complex and sensitive programs including administrative oversight, planning, organizing, directing, and managing the staff, programs, and work activities of the unit. The Building Performance and Metrics Unit has primary responsibility over developing and implementing the Building Benchmarking Program to evaluate and improve energy use intensity of existing commercial and multifamily buildings. The incumbent confers with the Program Manager, Deputy Director, Director, Executive Director, and Commissioners on a broad spectrum of technical subject areas within the unit's portfolio. The incumbent represents the unit, branch, division, and the Commission before various state, federal, and local agencies and organizations with roles in shaping the state's energy policies; and participates in proceedings and hearings as a subject matter expert. The incumbent serves as an expert resource on policy, technology, market, and strategic issues, and participates in extensive engagement with other Commission divisions; state, federal, and local agencies; industry stakeholders; and the public.

## Essential Duties

30% **Unit Supervision:** Direct personnel and supervision activities over the unit, including hiring, training, retention, staff development, probationary and annual performance review, and progressive discipline. Plan, direct, and coordinate the work of the staff and the unit.

Oversee, guide, develop, and coach the staff implementing unit programs, projects, and regulations. Conduct performance management aligning with Commission expectations. Provide leadership and direction to high-performing, highly motivated teams; oversee development and implementation of energy and water efficiency appliance standards; prepare and plan annual unit workplans, contract support, budgets, staffing plans, and evaluation to support the activities of unit personnel; and foster a culture of collaboration, creativity, respect, and excellence in a positive work environment that serves to retain staff. Carry out the state and Commission's equal employment opportunity policies.

- 20% **Policy Development:** Set priorities, conduct analyses, and develop policy recommendations for decision makers. Engage with external industry stakeholders and state, federal, and local governments. Advise the Program Manager, Deputy Director, Director, Executive Director, and Commissioners on a broad range of energy and water efficiency appliance standards, issues, strategies, and policies. Ensure projects and rulemakings are planned, initiated, and finalized; then implemented and monitored according to a project schedule.
- 15% **Deliver Products:** Support the unit in developing and delivering timely and high-quality work products, including written products, presentations and briefings, and other deliverables, with appropriate input from relevant external stakeholders and state, federal, and local governments. Ensure that unit studies and analyses comprehensively and accurately present policies and positions in proceedings that provide clear and well-reasoned recommendations. Ensure a high degree of quality control including rigorous analytical foundation and comprehensive writing techniques with deliverables.
- 15% **Support Branch and Division Management:** Act as a state expert; and advise and assist the Program Manager, Deputy Director, Director, Executive Director, and Commissioners on energy and water efficiency appliance standards. Serve as a member of the branch and division management teams in establishing and implementing division programs, administrative policies, budgets and resource plans, strategic plans, and procedures.
- 15% **Collaborate and Coordinate:** Represent and support the unit, branch, division, and Commission in meetings, briefings, conferences, and workshops, engaging state, federal, and local government agencies, the Legislature, industry stakeholders, research organizations, communities, and others.

### **Marginal Duties**

- 5% Perform other duties as required, consistent with the specifications of this classification.

## Working Conditions

The California Energy Commission offers a hybrid workplace model that is designed to support a distributed workforce of both office-based and remote-centric workers that relies on a high level of telework. In person attendance and occasional travel may be required based on the needs of the division. Regular and consistent attendance - whether office-based or remote-centric - is essential to the successful performance in this position. This position is remote centered which means the incumbent works 50 percent or more of their time monthly from an alternate work location (i.e., teleworking).

## Diversity and Inclusion Statement

As a State agency serving all Californians, the California Energy Commission is committed to being an organization that embodies diversity, equity, and inclusion. The Energy Commission plays an active and meaningful role in creating an environment that enables each employee to thrive.
