	he position could result in loss of critical inf	ormation for the mission and	
the organization.			

6. EMERGENCY OPERATIONS – ACTIVATION/OPERATIONAL ASSIGNMENT 100%:

When requested to fill an operational assignment and until demobilized, the following duties will be performed, and your regular duties may temporarily cease:

May be required to work in the State Operations Center (SOC), Region Emergency Operations Center (REOC), Joint Field Office (JFO), Area Field Office (AFO), Local Assistance Center (LAC), or other location to provide assistance in emergency response and recovery activities. All staff is required to complete operational related training and participate in one of three Readiness Teams that rotate activation availability on a monthly basis if not assigned to an Operational Branch (e.g., Fire/Law/Region). May be required to participate in emergency drills, training and exercises.

Staff need to work effectively under stressful conditions; work effectively & cooperatively under the pressure of short leave time; work weekends, holidays, extended and rotating shifts (day/night). Statewide travel may also be required for extended periods of time and on short notice.

While fulfilling an operational assignment it is important to understand that you are filling a specific "position" and that position reports to a specific Incident Command System (ICS) hierarchy. This is the chain of command that you report to while on this interim assignment.

On Call/Standby/Duty Officer (if applicable)

If assigned on-call, standby or as a Duty Officer, you are required to be ready and able to respond immediately to any contact by Cal OES Management (including contact from the State of California Warning Center) and report to work in a fit and able condition if necessary as requested.

7. JOB DESCRIPTION/GENERAL STATEMENT:

The ITS II, Geospatial Developer is an expert technical resource to support the design, development, deployment, and maintenance of Cal OES GIS applications and configurations. The incumbent will ensure adequate documentation for ongoing maintenance and support; provide innovative desktop and mobile ready geospatial web mapping solutions to Cal OES internal and external partners; assist with ADA compliance issues; ensure applications are optimized; and integrate GIS information with other Cal OES information technology (IT) applications. In addition to GIS application development, configuration and support, the incumbent will provide support to the Data and Geospatial team as needed.

Percent of Time	ESSENTIAL FUNCTIONS	
45%	 (E) APPLICATION SUPPORT Responsible for the maintenance and operations of existing GIS applications, including updating system documents; geodatabase modeling; system administration; data management; performance tuning; installing updates and patches; and maintaining geospatial databases and metadata. Perform quality assurance of GIS data and processes in accordance with defined standards. Maintain expertise in existing and emerging GIS-related software and technologies and evaluate their use to improve Cal OES programs and disaster response. Work with IT and program staff to resolve application issues. Ensure and follow the established change management and release management processes. Facilitate data collaboration between program participants. 	
40%	 (E) APPLICATION DEVELOPMENT Participate in the definition of solution requirements, analysis, and lead the solution design and development of GIS applications to meet Cal OES program needs. Develop and/or review Software Development Lifecycle (SDLC) deliverables and ensure requirements, strategies, standards, plans, and policies are met. Organize and maintain Cal OES geospatial data assets per established principles and policies. Develop mobile ready geospatial solutions.
