The appointee is required to complete Form 700 within 30 days of appointment, which identifies pertinent personal financial information.

Job Description

Under the general direction of the Energy Resources Specialist III (Managerial) in the Appliances Branch, the incumbent serves as the highest-level resource specialist and performs a variety of supervisory, program evaluation, planning, policy analyses, and formulation activities, as well as technical review and feedback to staff on written work products. The incumbent supervises and directs a technical staff of engineers and scientists in the Appliance Efficiency Standards Unit; and has program opportunities and responsibilities in the evaluation, analyses, and development of appliance standards under Title 20 of California Code of Regulations relating to energy and water efficiency, standby power consumption, and other product features that affect statewide demand for energy and water resources. In addition, the incumbent assists staff in coordinating working groups and internal and external stakeholders seeking to participate in the Appliance Branch’s rulemaking activities and in providing answers to questions relating to adopted standards.

Essential Duties

35% Plans, organizes, prioritizes, and directs the work of staff assigned development of standards to promote energy and water efficiency in appliances. The incumbent ensures that interested stakeholders, including regulated industries, are provided opportunities to participate in the rulemaking process for appliances standards.
30% Plans, organizes, prioritizes, and directs the work of staff assigned technical analyses and evaluation of proposed appliance efficiency standards; and coordinates the preparation of reports, models, and analyses of appliance measures to determine appropriateness of proposed new standards and proposed updates to existing standards. Works with the Efficiency Division regulations manager to develop required rulemaking documents pursuant to the Administrative Procedures Act.

20% Provides supervision over individuals within the unit including various administrative tasks, individual staff motivation, morale, performance evaluation, career development, personnel actions, and training.

10% Represents the California Energy Commission (CEC) and branch before utilities, legislators, private energy service companies, federal agencies, other state and local government agencies, the public, and industry organizations affected by the appliance energy and water efficiency program. Assists the branch manager with management responsibilities within the office, including recruitment, retention, administration, and coordination.

Marginal Duties
5% Performs other duties as required, consistent with the classification specification.

Working Conditions
The CEC offers a hybrid workplace model that is designed to support a distributed workforce of both office-based and remote-centric workers that relies on a high level of telework. Limited-in person attendance and occasional travel may be required based on the needs of the division. Regular and consistent attendance is essential to the successful performance in this position. This position is remote centered which means the incumbent works 50 percent or more of their time monthly from an alternate work location (i.e., teleworking). While performing duties, the incumbent will be required to use a personal computer and appropriate CEC remote/telework tools such as Microsoft Office 365 (Word, Excel, Outlook, PowerPoint, OneDrive, SharePoint, Teams, OneNote), Zoom, and internet browsers. Video participation is encouraged.

Diversity and Inclusion Statement
As a state agency serving all Californians, the CEC is committed to being an organization that embodies diversity, equity, and inclusion. The CEC plays an active and meaningful role in creating an environment that enables each employee to thrive.
