DUTY STATEMENT

GS 907T (REV. 03/03)

9. Percentage of time performing duties	10. Indicate the duties and responsibilities assigned to the position and the percentage of time spent on each. Group related tasks under the same percentage with the highest percentage first. <i>(Use additional sheet if necessary)</i>
25%	<p>Tribal Engagement: Lead, build and maintain collaborative relationships with Tribal Governments, Tribal organizations, and Tribal community members. Act as the Conservancy's Tribal Liaison, ensure implementation of the Tribal Consultation Policy, update the Tribal Consultation Policy as needed, and develop and implement other policies and guidelines related to tribal engagement. Lead, and coordinate closely with regional Tribal Liaisons at the Conservancy and manage the Tribal Committee. Provide technical assistance, training, support, and guidance to Conservancy staff on engaging, partnering, and consulting with Tribes and Tribal organizations and community members on agency policy, planning, and project activities. Lead and coordinate outreach and consultation activities with relevant Tribes, Tribal Organizations, and Tribal community members. Provide lead guidance on the analysis and integration of Tribal recommendations and help project managers at the agency meaningfully reflect the needs of Tribal communities in coastal restoration, coastal access, and climate adaptation plans and projects. Represent the agency on the Tribal Liaison committees at the California Natural Resources Agency and the Office of the Governor's Tribal Advisor, and in other committees and forums associated with tribal engagement. Maintain the California Natural Resources Agency Tribal Tracking Program for the Conservancy. Work independently, with the Native American Heritage Commission to obtain and maintain updated contact lists of tribal representatives of federally recognized and non-federally recognized California Indian Tribes.</p>
20%	<p>Community Engagement: Lead the agency with building relationships and partnerships with community-based organizations and community groups. Increase engagement of under-resourced communities in coastal conservation, public access to the coast, and climate adaptation planning, and specifically with Conservancy projects, grant opportunities, and planning efforts. In coordination with the Public Information Officer, develop outreach and engagement materials that effectively communicate project information to community audiences. Plan, organize and execute stakeholder engagement and community engagement events. Train and assist regional managers and project managers with techniques and resources to encourage robust and meaningful community engagement. Assist with the Conservancy's public meeting accessibility to foster inclusive participation processes. Help ensure that interested environmental justice and tribal community stakeholders are made aware of the agency's activities related to their communities and are provided with opportunities to participate in planning efforts, grant programs, and decision-making processes.</p>
15%	<p>Project Management: Manage an array of statewide and uniquely complex projects that have an environmental justice objective and entail a wide range of purposes including public access and recreation; natural resource restoration and enhancement; nature-based climate adaptation methods; and land acquisition and management. Requires coordination with community groups, environmental justice organizations, Tribes, regulatory agencies, land management agencies and private land managers, research institutions, consulting firms, elected officials, and nonprofit organizations. Project management includes project development, writing staff recommendations and presenting projects to the Board, negotiating contracts and grant agreements, ensuring all conditions are met, and reviewing and approving invoices.</p>
10%	<p>Training and Guidance: In coordination with the Diversity and Inclusion Personnel Analyst, develop and conduct staff training and provide staff with ongoing support on environmental justice, Tribal engagement, diversity, and inclusion, allyship, and other topics related to the Conservancy's JEDI work. In coordination with executive staff, develop and conduct presentations and workshops for the Conservancy Board on topics related to the agency's JEDI efforts.</p>
<u>5%</u> 100%	<p>MARGINAL FUNCTIONS Special projects and other related duties: Involvement in one or more special projects on an as-needed basis, such as mentoring of staff, fellows, or interns; presentations at conferences and workshops; and participation in conferences or councils focused on environmental justice or Tribal engagement.</p>

DUTY STATEMENT

GS 907T (REV. 03/03)

9. Percentage of time performing duties	10. Indicate the duties and responsibilities assigned to the position and the percentage of time spent on each. Group related tasks under the same percentage with the highest percentage first. <i>(Use additional sheet if necessary)</i>
	<p>KNOWLEDGE AND ABILITIES</p> <p><u>CPDA I</u> Knowledge of: The principles and practices of economics to evaluate the feasibility and economic impact of urban waterfront and other projects affecting coastal resources and waterfront economies; principles and practices of natural resources and land use planning to evaluate, prioritize, and structure acquisition, restoration, and access projects; the building and construction industry to review bid packages, cost estimates, and construction drawings; architectural design principles to promote excellence of design and projects which exhibit innovation in sensitively integrating human-made features into the natural coastal environment; property management to ensure stewardship of State investments and avoid liability claims; State real estate transaction procedures to ensure compliance with State law and policies and control agency oversight; environmental assessment to identify contaminant risks and liabilities during due diligence periods to protect State investments; the policies and procedures of the California Coastal Commission, San Francisco Bay Conservation and Development Commission, and other coastal management agencies; and the policies and programs of the State Coastal Conservancy.</p> <p>Ability to: Collect, analyze, and summarize technical data to be used in evaluating proposals, preparing reports, and structuring land acquisitions; analyze situations and take effective action to ensure the interests of the Conservancy and the State are protected; establish and maintain cooperative and effective relations with those contacted in the course of work; develop, review, and guide plans and projects to completion; communicate effectively on a one-to-one basis and in group settings as well as in presentations for the purpose of obtaining information or presenting information that is clear and concise; write effectively as in the preparation of letters, reports, staff recommendations, contracts, and grant agreements; organize and utilize time management skills including the ability to balance multiple project priorities, advancing project objectives, and managing workloads effectively; use analytical skills and effective problem-solving techniques in the formulation and development of projects; create solutions to address complex resource issues; effectively present controversial matters to small and large groups for the purpose of providing information or explaining Conservancy procedures and policies; and facility with various computer software programs such as Word, Excel, PowerPoint, and Outlook.</p> <p><u>CPDA II</u> Knowledge of: All of the above, and specific land acquisition techniques, including: acquisition of land at less-than-fair market value; structuring of long-term payouts for land using private nonprofit organizations; equity trading of properties in order to accomplish specific types of coastal restoration; tax-free exchanges of land for restoration and enhancement of significant coastal areas; tax-free exchanges, option agreements, conservation easements, installment sales, leasebacks, or exchanges to structure and execute the most complex land transactions; utilization of State and Federal tax laws to increase project feasibility; determination of economic feasibility of restoration projects using the formulas and rule of thumb of private developers; methods of contractor selection to ensure compliance with State law and policies and control agency oversight; local, State, Federal, and private funding sources to leverage State funding for projects; determination of when and in what circumstances to acquire purchase options; computation of economic feasibility of sale and leaseback of agricultural lands; acquisition of conservation and open space easements or other types of less-than-fee interests in real property; public relations policies and strategies to effectively communicate, respond to, and maintain good relations with the public, stakeholders, media, and others to support Conservancy programs and projects; State and Federal grant programs; and relationships between local, regional, State, Federal, private agencies, and organizations.</p>
