

**California Department of Food and Agriculture  
Pest Detection/Emergency Projects Branch  
Agricultural Technician I (Seasonal)  
Duty Statement**

**I. Program/Position Identification**

The Pest Detection/Emergency Projects Branch is responsible for the early detection and prompt eradication of serious exotic agricultural pests. The Branch accomplishes its mission by conducting a statewide trapping program, staffed by county and state inspectors, for exotic insect pests; by implementing special surveys for significant agricultural pests and plant diseases for which traps are not available; and by providing emergency eradication services using the best available technology. The primary objective of the emergency project component is to quickly and efficiently eradicate incipient infestations of serious agricultural pests, thereby preventing permanent establishment and subsequent spread in California.

Under close supervision of the Agriculture Program Supervisor I (APS I) or the Senior Environmental Scientist (Supervisory), the incumbent will work on the less responsible and routine seasonal entomological or plant pest field and laboratory work. The incumbent must be able to establish working relationships with those contacted during work and work well under pressure while completing assigned work and meeting required deadlines.

**II. Essential and Non-Essential Job Functions**

**A. Essential Functions:**

**Function #1: Trap/Survey and Eradication Activities 45%**

- Perform field or staff support duties of average difficulty, to deploy traps, perform visual surveys, or apply control measures for target pests such as, but not limited to various fruit flies, Japanese beetle, and gypsy moth.
- Follow established protocols for trapping, visual survey, or treatment activities and work with outside vendors to ensure compliance with Department policies and procedures, and State laws, rules, and

regulations; enforce and implement new procedures or processes with seasonal employees, when necessary.

- Safely drive and operate a state owned/leased/rented vehicle, abiding by all applicable state and local laws traffic laws, to execute required field work.
- Assemble equipment and mix chemicals using the appropriate protocols; assure that the Department is in compliance of all pesticide rules and regulations.
- Work with field staff in solving technical problems such as equipment breakdowns and trap deployment, using effective communication skills, knowledge, manuals, and/or facility operational procedures.
- Prepare and complete accurate and detailed technical reports (daily, weekly, and/or as required) as associated with detection and treatment activities, or other related activities.

**Function #2: Documentation of Work Completed**

**25%**

- Prepare and complete accurate and detailed technical reports (daily, weekly, and/or as required) as associated with detection trapping, survey, and treatment activities, or other related activities.
- Carefully documents address, host type and location of samples on property or field by drawing a map and/or using a Global Positioning System (GPS) unit and on a Pest and Damage Record (PDR).

**Function #3: Training**

**10%**

- Assist lead staff with onboarding new seasonal staff and training on proper host identification, drawing property diagrams, correct trap placement, baiting and application procedures, the biological aspects of the target pest.
- Assist lead staff with onboarding new seasonal staff and training on ground bait application using the solo backpack sprayer, truck mounted ground treatment equipment, soil drench application using the Hudson sprayer, and the use of a pressure gun and other equipment as needed

**Function #4: Trapping, Surveyor, Fruit/Tree Removal, and Applicator**

**10%**

- Act as back-up trapper, surveyor, pesticide applicator, and lead fruit/ tree removal when an emergency project becomes necessary or when a crew member is absent. Service traps, apply pesticides, conduct fruit/tree removal, perform visual surveys, document work completed, identify targeted insects, interact with the public, and submit suspect insects.

**Function #5: Office Work and Documentation**

**5%**

- Document hours worked and provide to supervisor or lead at the end of each day.
- Submit daily work summaries to supervisor or lead at the end of each day or when requested for reporting purposes.
- Ensure all formal original documents are complete and have signatures.
- Ensure all time sheets, sign-in sheets, exposure records, and other official documents are sent to supervisor or lead in a timely manner.

**B. Non-Essential Functions:**

**Function #1: Miscellaneous Duties 5%**

- Perform other job-related duties as requested by supervisor.

**III. Work Environment**

The duties of this position are primarily conducted outdoors and may be exposed to extreme temperatures and weather, uneven terrain, and various noise levels. The incumbent may work within an office/warehouse environment furnished with a variety of office equipment, which normally consists of desks, tables, chairs, filing cabinets, storage cabinets, filing bins, computers, computer peripherals, phones, answering machines, photocopiers, and fax machines.

The incumbent must have a valid driver's license and have a safe driving record as documented by the Department of Motor Vehicles. (A safe driving record is one free from convictions in the past two years for repeated moving violations, or a single serious violation, such as drunk driving or reckless driving). The incumbent must be able to apply pesticides, haul loads of fruit and/or removed trees, perform survey work, and work well under extreme time constraints, exercise good judgment, determine priorities, make appropriate well-thought out decisions, allocate staff and resources to achieve maximum results, maintain focus under conditions of duress, and provide accurate assessment of rapidly changing situations (ex: multiple exotic pest detections requiring multiple operations).

The incumbent will be required to drive, exit and re-enter the work vehicle numerous times during the workday, must possess a valid CA drivers' license and maintain a good standing driving record to operate a state motor vehicle safely and responsibly, be able to apply pesticides. The incumbent must be able to establish and maintain effective working relationships with those contacted during the course of work, cooperate with other staff members and leads in completing assigned work, communicate effectively verbally and in writing, with other agencies and the public, and be able to meet required deadlines.

The incumbent will be required to travel by State or rental vehicle to perform field active or other public transportation systems to various locations throughout the state. Must be legally able to rent a car. May work various shifts (pre-dawn and after 6:00 pm), weekends, overtime, and possibly a split shift.

The incumbent may be required to work overtime, weekends, and holidays.

Travel is essential and the incumbent will travel to various locations throughout the state to attend meetings or trainings related to pest detection, and treatment and to assist other offices with detection and treatment efforts is required.

**II. Essential and Non-Essential Job Functions**

**A. Essential Functions:**

**Function #1: Trap/Survey and Eradication Activities** **45%**

- Follow established protocols for visual survey, eradication and detection/ delimitation trapping. Service various insect traps, perform visual surveys and insect sweeps, visually inspect for target pest damage on local plant hosts, and conduct eradication treatments (mixing and application of spray materials).

- Collect, process, and package suspect plant and insect samples that are removed from foliage using various insect/plant collection tools and inspected for target pests.
- Safely drive and operate a state owned/leased/rented vehicle, abiding by all applicable state and local laws traffic laws, to execute required field work.
- Must be able to draw maps to show exact geographic locations using Global Positioning System (GPS) technology to show the coordinates, longitude and latitude.
- Complete a Pest Damage Record (PDR) for samples and packaging of samples for submission to the Plant Pest Diagnostics Center for Identification.

**Function #2: Documentation of Work Completed**

**25%**

- Keep daily reports of work completed in the route trap books and electronically, i.e. number of traps serviced, properties treated, acreage surveyed, samples collected, and other topics as needed.
- Carefully documents address, host type and location of samples on property or field by drawing a map and/or using a Global Positioning System (GPS) unit and on a Pest and Damage Record (PDR).

**Function #3: Collection and Submission of Target Pests**

**10%**

- Screen wet and dry traps for target pests (plant and insect). Examine content of traps visually, which may contain hundreds of plant samples, insects and debris to make preliminary identifications of specimens, which resemble target pests.
- Once a suspect target pest is preliminarily identified, prescribed is taken, which may include, phone contact and/or return of the suspect target pest to the field office for official identification.
- Incumbent carefully documents address, host type and location of sample on property or field by drawing a map and/or using a GPS unit and on a Pest and Damage Record (PDR). Suspect sample is handled carefully at all times to prevent damage that would make identification of the suspect more difficult. Sample is removed, placed in appropriate sampling container, and returned to base at the appropriate time designated by the supervisor.

**Function #4: Public Relations**

**10%**

- Initiate contact with property owner or representative in a professional manner, to conduct visual survey, place traps, or apply pesticides. Develop a cordial relationship to enable continued use of the property for current and future surveys or trap placements.
- The incumbent briefly answers questions about survey, detection and eradication program, referring questions asked regarding gardening, tree diseases, etc. to the proper agency.

**Function #5: Vehicle and Tool Maintenance**

**5%**

- Transport vehicles to service facility. Perform daily vehicle safety and fluid level checks. Clean vehicle interior and truck bed of insects, lures and other debris.
- Clean, repair and store all survey equipment daily. Notify supervisor when equipment needs repair or replacement.

**B. Non-Essential Functions:**

**Function #1: Miscellaneous Duties 5%**

- Perform other job-related duties as requested by supervisor.

**III. Work Environment**

The duties of this position are primarily conducted outdoors and may be exposed to extreme temperatures and weather, uneven terrain, and various noise levels. The incumbent may work within an office/warehouse environment furnished with a variety of office equipment, which normally consists of desks, tables, chairs, filing cabinets, storage cabinets, filing bins, computers, computer peripherals, phones, answering machines, photocopiers, and fax machines.

The incumbent must have a valid driver's license and have a safe driving record as documented by the Department of Motor Vehicles.
