

<b>Classification Title</b>	<b>Board/Bureau/Division</b>
Automotive Program Representative	Bureau of Automotive Repair
<b>Working Title</b>	<b>Office / Unit / Section / Geographic Location</b>
Enforcement Investigator	Field Operations & Enforcement Division / San Diego Field Office
<b>Position Number</b>	<b>Name and Effective Date</b>
646-161-6840-011	

General Statement: Under the general supervision of the Automotive Program (AP) Supervisor I, the Automotive Program Representative (APR) performs a full range of field and office duties related to the regulation of the automotive repair industry. Responsibilities include, but are not limited to, investigating consumer complaints, conducting inspections and audits of automotive repair facilities, and ensuring compliance with the Automotive Repair Act (ARA) and related laws and regulations.

The APR collects, analyzes, and preserves evidence, prepares detailed investigative reports that may lead to disciplinary actions, and may provide testimony describing BAR findings in administrative, civil, or criminal proceedings, including small claims court. This position requires technical knowledge of automotive repair practices and the ability to interpret and apply complex laws, policies, and procedures to protect California consumers from fraudulent and unsafe automotive practices and promote compliance within the automotive repair industry.

Assignments may vary in complexity and responsibility appropriate to the incumbent’s skill and range level within the classification. As an incumbent gains experience, they are expected to perform duties with increasing independence, complexity, and higher consequence of error.

Duties include, but are not limited to, the following:

**A. Specific Assignments [Essential (E) / Marginal (M) Functions]**

**65% (E) Investigations**

Investigate consumer complaints by interviewing complainants, automotive repair facilities, and witnesses; collect written and oral statements and affidavits in person, by phone, and in writing. Facilitate resolutions to disputes between consumers and licensees in accordance with applicable laws, policies, and procedures. Identify, gather, and preserve relevant evidence, including estimates, repair orders, invoices, parts, technical data, and photos, for potential use in legal actions. Examine vehicles and related records to verify claims and identify potential violations of the Business and Professions Code, California Code of Regulations, Health and Safety Code, Vehicle Code, Insurance Code, and Penal Code. Prepare investigative reports, documenting factual findings and supporting evidence, and make recommendations for appropriate action. (35%)

Address complex investigations involving repeat offenders or public safety threats and assist in training or mentoring of new staff on investigation procedures. (15%)

Participate in undercover operations to detect fraud or verify compliance with laws pertaining to the ARA, the Smog Check Program, and the Vehicle Safety Systems Program. (10%)

Maintain accurate enforcement records in BAR tracking systems, adhering to enforcement timelines. (5%)

**15% (E) Field Inspections**

Conduct inspections of licensed facilities, including Automotive Repair Dealers (ARDs), car lots, and parts suppliers, to verify ongoing compliance with applicable laws and regulations.

Inspect facilities applying for licensure as Official Smog and/or Vehicle Safety Systems Stations, ensuring all equipment, personnel, and operational requirements are met.

Identify and inspect unlicensed businesses and/or individuals in violation of the ARA, document violations and initiate enforcement actions where appropriate.

Perform more complex inspections and assist in training or mentoring of new staff on inspection procedures.

**15% (E) Private and Public Contact / Outreach**

Provide guidance and education to consumers, licensees, and industry stakeholders with information and questions related to the ARA, Smog Check and Vehicle Safety Systems Programs, and other BAR programs.

Represent BAR at public events or meetings; provide presentations to individuals or groups such as ARDs, trade associations, consumer groups, and educational institutions regarding laws and regulations.

Attend job related meetings and training sessions.

Assist or lead outreach efforts, assist with training or mentoring of new staff, or assist in developing training and educational materials.

**5% (E) Provide Expert Testimony**

Testify as to facts or as an expert witness in administrative hearings, civil or criminal proceedings, and in small claims court in matters involving BAR investigations and findings.

Explain technical repair issues, investigative procedures, and BAR policies clearly and professionally to judges, juries, attorneys, and other parties.

Provide testimony in high-profile or complex cases involving technical or legal nuances or assist in training or mentoring of new staff on courtroom testimony procedures.

**B. Supervision Received**

The APR works under the general supervision of the AP Supervisor I, but may receive direction from an Automotive Program Supervisor II or Automotive Program Manager.

**C. Supervision Exercised**

NONE

**D. Administrative Responsibility**

NONE

**E. Personal Contacts**

Daily interaction with supervisors, support staff and other APRs in the field office. Frequent contact with the public, including licensees, complainants, and witnesses. Regular interaction with other government agencies, such as law enforcement, district attorneys, and the Attorney General's Office.

**F. Actions and Consequences**

Failure to properly complete an investigation in a timely manner may delay licensure and cause the Department of Consumer Affairs (DCA) loss of licensing fees and may negatively impact individuals who are unable to obtain or renew licensure while an investigation is pending. An inadequate investigation may allow violations of the ARA to go undetected or result in an administrative action to be brought against an undeserving person, undermining DCA's integrity and hindering BAR's mission, vision, and goals to protect consumers. The consequences of error increase at higher ranges as responsibilities become more complex and investigations carry greater impact.

**G. Functional Requirements**

The incumbent works 40 hours per week including time spent in an office setting, with artificial light and temperature control. Daily access to and use of a personal computer and telephone is essential. Stationary position requirements in the office are consistent with office work. Approximately 75% of time is spent in the field, includes remaining in a stationary position, driving, and ambulating for extended periods during fieldwork. Frequent hand manipulation and body movements are expected. Occasionally, the incumbent must maneuver around, underneath and/or over obstacles during investigations.

Physical Demands

In an 8-hour work shift, an incumbent will routinely:

Stand/Walk	Occasionally
Sit	Occasionally
Drive	Frequently
Bend/Stoop	Occasionally
Squat/Crouch	Occasionally
Crawl	Occasionally
Reach/Stretch	Occasionally
Balance	Occasionally
Push/Pull	Occasionally
Carry	Occasionally
Lift	Occasionally
Kneel	Occasionally
Twist	Occasionally
Foot Movement	Occasionally, the incumbent will use repetitive foot movements when driving a vehicle.
Hand Manipulation	The incumbent uses hands respectively for fine manipulating motor skills and firm grasping with all joints and digits for writing or typing reports.

Occasionally	=	1-33% of workday
Frequently	=	34-66% of workday
Continuously	=	67-100% of workday

Environmental Conditions

Work may be performed both indoors and outdoors. Indoor work is in a controlled environment; outdoor work may expose the incumbent to climatic conditions, dust, fumes, and potentially hazardous materials or chemicals. Inspections may require working in automotive bays or repair areas, where exposure to tools, machinery, and minor hazards is common. Driving may pose additional environmental exposure.
