Electrical Infrastructure	Environmental Scientist	681-310-0765-(012, 013, 014)
BRANCH (if applicable)	WORKING TITLE	CBID
Environmental Inspections and Investigations Support	Environmental Scientist- Inspector	R10
SECTION/UNIT (if applicable)	REPORTING LOCATION	INCUMBENT
	Sacramento, Oakland, Los Angeles	VACANT
IMMEDIATE SUPERVISOR		
Senior Environmental Scientist (Supervisory)		
MISSION STATEMENT		
The mission of the Office of Energy Infrastructure Safety (Energy Safety) is to create a safer, sustainable California with utility infrastructure that is managed to reduce excavation and wildfire risk and is adaptable to an evolving climate.		
POSITION DESCRIPTION		
<p>Under general direction of the Senior Environmental Scientist Supervisor of the Inspections & Investigations Branch the incumbent will lead inspections of vegetation near electrical infrastructure, write and review inspection reports, lead development of inspection plans to ensure electrical corporation compliance with approved Wildfire Mitigation Plans (WMPs) and other regulatory requirements of the Department associated with forestry, wildfire science, and the environment. Incumbent will also lead investigations into concerns raised by external parties and other potential WMP violations, conduct critical and/or sensitive scientific investigations and studies and prepare guidance, policy, planning, or regulatory documents and legislative proposals on issues of importance to the department. Incumbent will identify issues found in the field and elevate to the Supervisor with proposed recommendations. The incumbent will provide guidance to and assist the branch Environmental Scientists with document reviews and deliverables prior to submittal to management. The incumbent will develop and maintain positive relationships with internal and external agency partners. The incumbent will be the subject matter expert on vegetation management programs to ensure electrical utility compliance with approved WMPs and other regulatory requirements of the Department associated with forestry, wildfire science, climate change and the environment.</p>		
<p>In all job functions, employees are responsible for creating an inclusive, safe, and secure work environment that values diverse cultures, perspectives and experiences, and is free from discrimination. Employees are expected to provide all members of the public equitable services and treatment, collaborate with underserved communities and tribal governments, and work toward improving outcomes for all Californians.</p>		
ESSENTIAL FUNCTIONS:		
%	TASK/DUTIES	
45%	<p>Perform environmental field inspections of vegetation around electrical infrastructure by monitoring all facets of utility execution of vegetation management programs and adherence to wildfire safety rules and regulations with the goal of reducing overall wildfire risk. This includes developing quarterly inspection work plans through the analysis of spatial data submitted by the utility and other data inputs for approval by the Supervisor, as well as preparing inspection reports and regulatory and compliance documents such as notices of non-performances. Prepare and submit data requests to support field inspections. Submit notices and track completion of corrective actions. Investigate environmental concerns raised by external parties. Prepare and present inspection and investigation findings to various audiences in formal and informal settings.</p>	

Duty Statement

20%	Lead the development of and updating of inspection tools, processes, and methods. This includes reviewing and updating vegetation inspection job aids and guides to ensure their relevancy and meet the inspection demands of the Branch. Review applicable utility protocols and procedures to ensure inspection forms, protocols, and operations are reflective of current utility operations. Lead efforts in updating inspection forms and protocols which includes collaborating with the Data Analytics and Performance Assessment Division. Research and provide recommendations for new equipment, methods and tools to ensure it supports the inspection program as needed.
15%	Provide subject matter expertise on vegetation-related matters by collaborating with other branches within the division and supporting division workstreams. This includes providing recommendations for audits, special investigations, enforcement action, and changes in regulations or guidelines, as well as drafting and reviewing documents. Act as a subject matter expert to other Energy Safety divisions including the Performance Assessment Division.
15%	Prepare and present briefings to internal and external parties. Act as a liaison for the branch to other department divisions. Participate in stakeholder meetings and attend workshops. Provide consultative advice to various governmental entities and electrical corporations, as required.
MARGINAL FUNCTIONS:	
%	TASK/DUTIES
5%	Other job-related duties as assigned and necessary for operational continuity. Attend staff meetings and prepare administrative paperwork to meet operational needs. Participate in professional development trainings, as well as tasks, trainings and activities that support programmatic and workplace diversity, equity, and inclusion.
