## Office of Data and Innovation

401 I Street Suite 200, Sacramento, California 95814

### Duty Statement

Current     Proposed

Item	Position information
Office/Department	Office of Data and Innovation (ODI)
Unit/Section	CallInnovate
Classification	Information Technology Specialist III
Working title	Senior Full Stack Engineer
Position number	418-100-1415-900
Prepared date	03-17-2026
Effective date	
Name	Vacant

### General Statement

Under the administrative direction of the Engineer Management Lead, the Senior Full Stack Engineer (Information Technology Specialist III) will iterate on applications based on user research, ensuring high performance and accessibility and coding using modern web standards. They will write, code, test, and analyze software programs and applications, application programming interfaces (APIs), and designs. The Information Technology Specialist III will also research, document, and modify software specifications throughout the software delivery life cycle. The incumbent will work on technological solutions that are essential to the mission of state organizations and affect large numbers of users on a long-term or continuing basis. The incumbent will employ initiative and resourcefulness in deviating from traditional methods and researching emerging technologies to develop new methods, criteria, and/or new policies, contributing to ODI's focus on improving government services for all Californians using the power of technology and design.

## Essential Functions

%	Description
45%	<p>Software Development</p> <ul style="list-style-type: none"> <li>● Develop high-quality, well-tested, maintainable code across an entire product lifecycle, using modern software development best practices.</li> <li>● Deliver code that is easy to deploy, update, and monitor by ensuring the tooling is present early in the product development cycle or by introducing tooling into an existing project as needed. Review software code to ensure compliance with defined standards.</li> <li>● Use usability research, analytics, and other metrics to influence project planning and design.</li> <li>● Deliver secure, reliable and scalable software; undertaking a breadth of development tasks.</li> <li>● Design the front and/or backend architecture of applications and develop user facing features.</li> <li>● Audit and improve program functionality and/or performance and accessibility.</li> <li>● Design, run, and monitor software performance tests on new and existing programs to correct errors, isolating areas for improvement, and general debugging.</li> <li>● Build reusable code and libraries for future use.</li> <li>● Administer critical analysis of test results and deliver solutions to problem areas.</li> <li>● Conduct research on emerging application development software products, languages, and standards in support of procurement and development efforts.</li> </ul>
30%	<p>Product Delivery</p> <ul style="list-style-type: none"> <li>● Identify, analyze and collaborate with stakeholders to develop solutions for problems that have been identified. Ensure compliance with state and federal requirements. Meet personal and organizational goals and customer expectations; produce high-quality results by applying technical knowledge, analyzing problems, and calculating risk.</li> <li>● Develop, implement and support technical strategy in engineering-specific and organization-wide contexts.</li> <li>● Determine operational practicality and ensure the technical feasibility of UI/UX designs.</li> <li>● Assist in the definition, development, and documentation of software's business requirements, objectives, deliverables, and specifications on a project-by-project basis in collaboration with users and departments.</li> <li>● Assist in defining software development project plans, including scoping, scheduling, implementation and documentation.</li> <li>● Practice human-centered design, user testing, feature prioritization, agile methodology and other relevant concepts that place the needs of Californians front and center.</li> <li>● Research, identify, analyze, and fulfill requirements of all internal and external program users.</li> </ul>

%	Description
	<ul style="list-style-type: none"> <li>Develop and update high level work plans for project/effort execution; contact users to discuss business/system requirements; and identify resources, schedules, and priorities.</li> </ul>
20%	<p>Digital Solution Consultation</p> <ul style="list-style-type: none"> <li>Train end users or teammates to operate new or modified programs.</li> <li>Work with stakeholders and vendors for efficient implementation of new software products or systems and for resolution of any adaptation issues.</li> <li>Recommend, schedule, and perform software improvements and upgrades.</li> <li>Work within a distributed multidisciplinary agile team (developers, programmers, UX researchers, designers, etc.) by participating in constructive discussions, sharing knowledge openly, and demonstrating value for technical and non-technical contributions.</li> <li>Keep up-to-date on policies and trends that affect the organization and shape stakeholders' views.</li> <li>Develop new insights into situations and question conventional approaches.</li> <li>Participate and support growing communities of practice.</li> <li>Explain technical issues and concepts clearly to both technical and non-technical audiences.</li> </ul>

### Marginal Functions

5%	Perform other staff assignments as appropriate and required
----	---

### Supervision Received

The Senior Full Stack Engineer reports to the Engineer Management Lead (CEA-B).

### Supervision Exercised

None

### Working Conditions

The employee regularly works in an indoor and climate-controlled office setting under artificial light. The employee's workstation is located in Sacramento, CA or Oakland, CA, and is equipped with standard or ergonomic office equipment. May sit for an extended period using a keyboard and video display terminal. Based on departmental or operational needs, the employee may have a teleworking option. Occasional travel may be required to attend meetings in Sacramento, offsite, conferences, and/or training classes. On occasion, may require flexible work schedules, including some evening hours to complete assignments, meet deadlines, and provide support to the Directorate.

### Attendance

Must maintain regular and acceptable attendance at such a level as is determined ODI's sole discretion. Must be regularly available and willing to work the hours the department determines are necessary or desirable to meet its business needs.

**I have read and understand the duties listed above and I can perform these duties with or without reasonable accommodation.** \*(If you believe reasonable accommodation is necessary, discuss your concerns with the hiring supervisor.)

*A Reasonable Accommodation is any modification or adjustment made to a job, work environment, or employment practice or process that enables an individual with a disability or medical condition to perform the essential functions of their job or to enjoy an equal employment opportunity.*

Duties of this position are subject to change and may be revised as needed or required.
