

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

CLASSIFICATION TITLE CT Equipment Operator II	OFFICE/BRANCH/SECTION D9/Maintenance/Lee Vining	
WORKING TITLE Caltrans Equipment Operator II	POSITION NUMBER 909-630-6286-115	REVISION DATE 1/26/2026

As a valued member of the Caltrans team, you make it possible to improve lives and communities through transportation.

GENERAL STATEMENT:

Under the supervision of the Caltrans Maintenance Supervisor, the Caltrans Equipment Operator II performs a wide variety of laboring and equipment operation functions necessary to maintain California highways, bridges, landscaping, and roadside rests. Depending on the workload, incumbent may be required to work under other supervisors and work units. The incumbent will operate vehicles requiring a Class A commercial driver license with a tank vehicle endorsement and operate and service specified equipment used in highway maintenance, structures maintenance, emergency service, landscape, or construction. When not operating equipment, may perform any of the duties outlined under the Caltrans Equipment Operator I, the Caltrans Highway Maintenance Worker or the Caltrans Landscape Maintenance Worker; and do other related work.

CORE COMPETENCIES:

As a CT Equipment Operator II, the incumbent is expected to become proficient in the following competencies as described below in order to successfully perform the essential functions of the job, while adhering to and promoting the Department's Mission, Vision, Values, Strategic Imperatives and Goals. Effective development of the identified Core Competencies fosters the advancement of the following Leadership Competencies: Change Commitment, Risk Appetite, Self-Development/Growth, Conflict Management, Relationship Building, Organizational Awareness, Communication, Strategic Perspective, and Results Driven.

- **Flexibility and Managing Uncertainty** : Adjusts thinking and behavior in order to adapt to changes in the job and work environment. (Safety - Integrity)
- **Dealing with Ambiguity (Risk)**: Can comfortably handle risk and uncertainty, as well as make decisions to act without having the total picture. (Safety - Collaboration, Integrity)
- **Ethics and Integrity**: Demonstrated concern to be perceived as responsible, reliable, and trustworthy. Respects the confidentiality of information or concern shared by others. Honest and forthright. Conforms to accepted standards of conduct. (Safety - Collaboration)
- **Problem-solving and Decision-making** : Identifies problems and uses logical analysis to find information, understand causes, and evaluate and select or recommend best possible courses of action. (Safety, Equity - Collaboration)
- **Teamwork/Partnership**: Develops, maintains, and strengthens partnerships with others inside or outside of the organization through effective communication and collaboration. (Safety - Collaboration)
- **Customer Focus**: Considers, prioritizes, and takes action on the needs of both internal and external customers. (Employee Excellence - Integrity)
- **Communication**: Expresses oneself clearly in all forms of communication. Gives feedback and is receptive to feedback received. Knows that listening is essential. Keeps others in the Division and other functional units informed as appropriate. (Safety - Collaboration)
- **Forward Thinking**: Anticipates the implications and consequences of situations and takes appropriate actions to be prepared for possible contingencies. Anticipates and prepares for future developments. (Safety, Prosperity - Collaboration, Integrity)
- **Technical Expertise**: Depth of knowledge and skill in a technical area. (Safety - Collaboration)

TYPICAL DUTIES:

Percentage
Essential (E)/Marginal (M)¹ Job Description

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

45%	E	Operate equipment such as dump trucks, front loaders, mowers, and striper trucks; operate machine attachments such as loader buckets, back hoe, and skid steer to conduct repair work; operating trucks with adjustable attachments (e.g., front plow, attenuator, towable pull brooms) to sweep debris from paved surfaces, and/or remove snow and ice; operate hand tools such as shovels, lute, pitchforks to spread, smooth, level, or steel-reinforce concrete, stone, asphalt on roads, and/or landscaped areas; distribute paving material to adjust paving finishing machine settings, material flow, and/or to indicate low spots for additional material; operating emulsion or crack sealing kettles; hauling sand, gravel, asphalt, and/or clay using dump trucks to job site areas to use for fill in washouts and/or repair highway shoulders; spreading gravel and asphalt using hydraulic spreaders to fill washouts and/or repair travel way shoulders; Install and/or repairing safety devices such as guardrails, shoulders, berms, markers, warning signals, snow fences to ensure safety measures are in place; operating chainsaws for brush and tree removal.
45%	E	Secure loads properly on equipment trailers; load and unload equipment and materials from equipment trailers; perform repairs and preventative maintenance on gas-powered equipment such as blowers, line trimmers, and chainsaws to ensure equipment runs properly and safely; maintain repair and maintenance records on equipment to ensure adequate recordkeeping; clean and sharpening hand tools to ensure proper and safe operation; spread materials such as topsoil, sand, compost, tan bark, decorative rock, gravel, wood chips over ground using shovels and rakes to beautify landscape, protect plants, control weeds, minimize soil erosion, and/or to prepare soil for planting; trim bushes and hedges using hedge trimmers to maintain vegetation; prune trees utilizing saws and loppers; operate tractors and loaders safely; operate wood chippers and stump grinders; dig trenches using shovels, trenchers, and tractor attachments to assist in the installation of drainage and/or irrigation systems; operate computer-controlled irrigation systems to ensure landscaped grounds are properly irrigated; plow snow to ensure roads and pathways are free from snow and drivable; remove objects and spills along roadways such as diesel, minor spill cleanup, and car batteries to properly dispose of in a safe manner.
10%	M	Service minor repairs and keep equipment clean. Keep all pertinent records such as pre and post operative equipment checks, fuel purchase/usage, and material usage reports.

¹ESSENTIAL FUNCTIONS are the core duties of the position that cannot be reassigned.

MARGINAL FUNCTIONS are the minor tasks of the position that can be assigned to others.

SUPERVISION OR GUIDANCE EXERCISED OVER OTHERS

The Caltrans Equipment Operator II does not directly supervise.

KNOWLEDGE, ABILITIES, AND ANALYTICAL REQUIREMENTS

Knowledge of how to operate large vehicle equipment such as dump trucks, front loaders, mowers, and striper trucks in various weather and road conditions to transport materials and equipment to and from the job site; methods used in maintaining and repairing roadways; the proper use of personal protective equipment such as gloves, hard hats, safety vests, and safety eye wear to ensure the safety of oneself while performing work tasks; the installation and repair of sprinkler systems such as control valves, controllers, sprinkler head, pipes, and flow sensors to ensure landscapes are properly watered; the California Vehicle Code provisions as it pertains to the loading and operation of motor vehicles and rules and regulations pertaining to highway maintenance practices. Incumbent must also possess the ability to take basic measurements to determine dimensions; use and maintain tools and equipment such as ladders, dollies, hammers, wrenches, screwdrivers, shears, loppers, tree saws, and wheel barrows; properly and safely use various gasoline powered tools such as chain saws, leaf blowers, pole saw, hand held augers, and string trimmer; work safely around high-density traffic; work effectively alone or with others; the ability to analyze various work situations accurately and make sound decisions.

SPECIAL REQUIREMENT

Must possess an unrestricted valid Class A driver's license with N (Tank Vehicle) endorsement.

RESPONSIBILITY FOR DECISIONS AND CONSEQUENCES OF ERROR

Errors in judgement could result in the failure to properly service and maintain or operate equipment and cause excessive repair costs, loss of equipment and negatively impact work production. Negligence could also cause physical harm to the general public, operator and/or crew members. Employees of the State may be held liable for their own actions as a result of their carelessness on a job.

PUBLIC AND INTERNAL CONTACTS

The incumbent may be asked to work with representatives from both public and private Local Agencies as well as all levels of Caltrans Management.

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

PHYSICAL, MENTAL, AND EMOTIONAL REQUIREMENTS

A majority of this position is labor intensive. Incumbent must have physical ability to react quickly to errant motorists and do strenuous hand and mechanical labor.

Note: For standing, walking and sitting, along with several other activities, typical duties are used as examples in various situations to give ranges for the activities. Generally, activities can be broken down into operating equipment 45% of the time on a year-around basis. The remainder of the activity is labor.

Standing, Sitting and Walking are described to equal 100% of the work time for a given period such as a work shift. The following are various situations and percentages given to illustrate typical ranges of time spent sitting, standing and walking:

A. Rainy day where worker is digging out clogged ditches and drains: Standing and walking using hand tools 40% each: Sitting and driving 50%.

B. Snowy day: Sitting and operating large trucks, loaders, motor graders and snow blowers 90%; walking and standing, checking out equipment, 10%

C. Crack sealing: Standing and walking 95% of the day

D. Chip sealing: Standing, operating truck, loader, spreader, 80% to 90% of day

E. Paving: Operating trucks, motor graders, loaders, pavers, 45% of day; standing and walking, raking, and shoveling, 45% of day.

F. Litter pickup/patrol: Lifting, walking and climbing in/out of vehicle 95% of day

G. Flagging/Pilot Car/Lane Closure Operations: Standing, twisting and turning, and sitting 95% of the day

Lifting (Floor to bench to Floor) – Items listed may be any of the following but not limited to: tire chains for vehicles, which may weigh as much as 75 lbs. per chain. In the winter months these could be handled on an everyday basis; a post driver which weighs approximately 60 lbs.; assist with the loading and unloading of a tire in a rim which can weigh over 75 lbs. Another example of lifting is shoveling asphalt. Each shovel full lifted weighs approximately 15 lbs., and 1,000 to 1,500 lbs. of sand or asphalt per day, would normally be lifted. 80% of this lifting would be floor to waist and 20% lifted above the waist. Installing marker post, at least two feet into the ground, requires lifting up and pulling down the 60 lb. driver 10 to 150 strokes per post, worker could install up to 40 markers per day.

Another type of lifting is light pickup – loading garbage bags with litter, which requires continuous bending and lifting.

MOVING MATERIAL – Incumbent may be required to move bagged/boxed material, which can weigh from 50 to 100 pounds.

Material may be moved from storage areas to vehicles and from vehicles to job sites, which may be on uneven terrain. Tools carried include picks, hoes, rakes, hoses, signs, standards, flags, cones, guide posts, etc. and may be carried on uneven terrain. Incumbent should ask for assistance when moving items over 50 pounds.

Overhead reaching – Overhead work includes pulling yourself up into many types of equipment from 0 to 30 times per day, pruning, holding up signs off a ladder, servicing equipment on the lube hoist, signaling other workers, and throwing/loading material in equipment.

Other Reaching – Setting cones, lubing and checking equipment, raking, shoveling, driving, using digging bar, shifting, holding signs picking up cones; often done on a continuous basis, over 60% of the work shift.

Pushing/Pulling – Shoveling, opening garage doors, hooking up trailers; installing plows, sanders, kettles, pulling on hoses, working cranks on equipment stands; tightening and loosening nuts on bolts. Installing and removing tires and chains; pulling down on post drivers. Pulling brush and limbs, animal carcasses, and pulling chains.

Twisting - The Operator twist while driving equipment and does so forth on a continuous basis, especially while backing up or turning around while operating a pilot car. Other twisting is done while dragging brush, shoveling, raking and setting down and picking up traffic cones which weigh 10 lbs.

Climbing/Balancing – Climbing is done in and out of equipment, up and down banks and used in fine manipulation of a chain slopes, ladders, stairways, (often with a load of material or supplies); onto steps and walkways to do engine checks on equipment. One example would be to climb on a heavy equipment trailer to secure the load with chain binders.

Bending/Crouching/Squatting/Crawling – The Operator often bends continuously throughout the day while operating equipment and performing physical labor. All of these activities are necessary when picking up and laying down tools and material. The Operator also crawls around and underneath equipment while checking and servicing equipment, putting on or removing snow chains and tightening or replacing grader blades.

Simple Grasping – This activity is necessary about 95% of the shift; climbing in/out and around equipment, operating equipment, using hand tools and handling materials.

Fine Manipulation – This occurs less than 2% of a day and usually while writing reports or manipulating the knobs and levers on the equipment. A higher percentage of the time would be saw or similar equipment.

Importance of hearing and sight – both are essential on the job because the operator must hear directions and equipment, and must see in order to perform his/her duty safely.

Hearing should be adequate to hear warning devices used for worker safety, i.e. look out alarm devices, including vehicle horns used to warn employees of eminent danger at the work site. Corrected hearing is acceptable.

Sight needs to be corrected to the State of California Department of Motor Vehicles standards for safe vehicle driving. Night vision must be good for safety when working after dark.

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

WORK ENVIRONMENT

Incumbent will be required to work in a wide range of sometimes-extreme conditions, such as heat, cold, strong winds, rain, sleet, and snow. This includes heat up to 120 degrees and cold temperatures to -15 degrees. Incumbent may be scheduled to work the night shift during the months of November, December, January, February, March and April or as scheduled by the Maintenance Supervisor. May be required to work overtime, which may include weekends and holidays, due to storms, emergencies, special work projects, or when the Supervisor deems that it is in the best interest of the State to work overtime.

The incumbent will be on the 9/80 work schedule. Please note that the schedule may change at the discretion of the District Management and/or Supervisor.

Personal safety requirements include:

- A. Work boots, in good and sturdy condition, must be worn to provide foot and ankle support protection.
- B. Either long or short sleeved shirts provided by Caltrans, or a safety vest is to be worn over non-safety shirts or coats.
- C. Long pants. No shorts or cutoffs.
- D. Provided safety gear; hard hat, safety glasses, hearing protection devices, face shields, gloves, respirator, chaps, or other safety gear must be worn when required by the Department.

Some crews are designated travel crews and work out of town on a per diem basis up to 80% of the year.

I have read, understand and can perform the duties listed above. (If you believe you may require reasonable accommodation, please discuss this with your hiring supervisor. If you are unsure whether you require reasonable accommodation, inform the hiring supervisor who will discuss your concerns with the Reasonable Accommodation Coordinator.)

I agree that by providing my electronic signature for this form, I agree to conduct business transactions by electronic means and that my electronic signature is the legal binding equivalent to my handwritten signature. I hereby agree that my electronic signature represents my execution or authentication of this form, and my intent to be bound by it.

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

CLASSIFICATION TITLE CT Equipment Operator I	OFFICE/BRANCH/SECTION D9/Maintenance/Lee Vining	
WORKING TITLE Caltrans Equipment Operator I	POSITION NUMBER 909-630-6890-XXX	REVISION DATE 1/26/2026

As a valued member of the Caltrans team, you make it possible to improve lives and communities through transportation.

GENERAL STATEMENT:

Working under the direction of the Caltrans Maintenance Supervisor, the incumbent works with and operates equipment defined in the approved list of equipment the CEO I position may operate. Works with crew or individually performing highway maintenance work.

CORE COMPETENCIES:

As a CT Equipment Operator I, the incumbent is expected to become proficient in the following competencies as described below in order to successfully perform the essential functions of the job, while adhering to and promoting the Department's Mission, Vision, Values, Strategic Imperatives and Goals. Effective development of the identified Core Competencies fosters the advancement of the following Leadership Competencies: Change Commitment, Risk Appetite, Self-Development/Growth, Conflict Management, Relationship Building, Organizational Awareness, Communication, Strategic Perspective, and Results Driven.

- **Flexibility and Managing Uncertainty** : Adjusts thinking and behavior in order to adapt to changes in the job and work environment. (Safety - Integrity)
- **Dealing with Ambiguity (Risk)**: Can comfortably handle risk and uncertainty, as well as make decisions to act without having the total picture. (Safety - Integrity)
- **Ethics and Integrity**: Demonstrated concern to be perceived as responsible, reliable, and trustworthy. Respects the confidentiality of information or concern shared by others. Honest and forthright. Conforms to accepted standards of conduct. (Safety - Collaboration)
- **Problem-solving and Decision-making** : Identifies problems and uses logical analysis to find information, understand causes, and evaluate and select or recommend best possible courses of action. (Safety - Pride)
- **Teamwork/Partnership**: Develops, maintains, and strengthens partnerships with others inside or outside of the organization through effective communication and collaboration. (Safety - Integrity)
- **Customer Focus**: Considers, prioritizes, and takes action on the needs of both internal and external customers. (Employee Excellence - Innovation)
- **Communication**: Expresses oneself clearly in all forms of communication. Gives feedback and is receptive to feedback received. Knows that listening is essential. Keeps others in the Division and other functional units informed as appropriate. (Safety - Collaboration)
- **Forward Thinking**: Anticipates the implications and consequences of situations and takes appropriate actions to be prepared for possible contingencies. Anticipates and prepares for future developments. (Safety, Prosperity - Collaboration, Pride)
- **Technical Expertise**: Depth of knowledge and skill in a technical area. (Safety - Integrity)

TYPICAL DUTIES:

Percentage		Job Description
45%	E	Operates a variety of trucks and highway maintenance equipment defined in the approved list of equipment the CEO I position may operate. Participates as crew member in performance of highway maintenance activities in accordance to the Department's policies and procedures to ensure employee and job-site safety. Recognizes roadway deficiencies and takes appropriate corrective action to ensure public safety.
30%	E	When not operating the specified equipment, accomplish tasks normally performed by the assigned unit. Such tasks may include, but are not limited to, paving, shoulder grading, mowing, ditch cleaning, dig outs, pavement patching, repair or replacement of guide markers, signs, fence, guardrail, clean culverts, traffic control, litter pick up, maintenance of roadside rests, and any other duties that would normally be assigned to a Highway Maintenance Worker or Landscape Maintenance Worker.

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

10%	E	Equipment care and Record Keeping: cleans, makes minor repairs and services equipment. Keeps records of time reporting, equipment pre-op/post-op, material use and other pertinent records.
10%	E	Performs heavy physical labor associated with highway maintenance. Common hand tools used, could be, but not limited to picks, shovels and brooms.
5%	M	Service minor repairs and keep equipment clean. Keep all pertinent records such as pre and post operative equipment checks, fuel purchase/usage, and material usage reports.

¹ESSENTIAL FUNCTIONS are the core duties of the position that cannot be reassigned.

MARGINAL FUNCTIONS are the minor tasks of the position that can be assigned to others.

SUPERVISION OR GUIDANCE EXERCISED OVER OTHERS

The Caltrans Equipment Operator I does not directly supervise.

KNOWLEDGE, ABILITIES, AND ANALYTICAL REQUIREMENTS

Requires knowledge of the operation and care of automotive and highway maintenance equipment. Provisions of the California Vehicle Code as it applies to the safe loading and operation of motor vehicles. Regulations and safety practices pertaining to highway maintenance equipment and operation and loading, procedures, regulations, safety practices, tools and equipment used in maintenance of highways, structures, and emergency first aid. The ability to work safely around high-density and high-speed traffic and in inclement weather.

Ability to communicate and follow directions at a level required for successful job performance. Perform heavy manual labor, follow oral and written instructions, keep records, interpret simple blueprints and operate radio equipment.

SPECIAL QUALIFICATIONS

Must possess an unrestricted valid Class B driver's license with N (Tank Vehicle) endorsement.

RESPONSIBILITY FOR DECISIONS AND CONSEQUENCES OF ERROR

Errors may endanger co-workers, the public and the environment. Error may also cause a waste of time and waste of tax dollars through extra expense in the maintenance of highways, or damage to State equipment and facilities. Failure to make timely and proper decisions could endanger human lives and property, result in lawsuits, or cause Caltrans to violate its storm water permits.

PUBLIC AND INTERNAL CONTACTS

Required to maintain good relations with members of the public and employees from the same and other departments within Caltrans, as well as other agencies. May have contact with other public agencies and private individuals almost daily in the course of assignment. Contact may be with hostile public, and employee is expected to maintain a favorable image for the State. At times may deal with the media.

PHYSICAL, MENTAL, AND EMOTIONAL REQUIREMENTS

May be required to work rotating or irregular shifts, including weekends, nights and overtime. The above duties may also require prolonged stooping, bending, lifting, sitting, climbing or standing. May be required to work in extreme warm or extreme cold weather, and during inclement weather. Percentages may vary depending on crew, geography, and season.

Much of this position is labor intensive. Incumbent must have physical ability to react quickly to errant motorist and do strenuous hand and mechanical labor.

Note: For standing, walking and sitting, along with several other activities, typical duties are used as examples in various situations to give ranges for the activities. Generally, activities can be broken down into operating equipment and light vehicles 18% of the time on year-around bases. The remainder of the activity is labor.

Standing, Sitting and Walking are described to equal 100% of the work time for a given period such as a work shift. The following are various situations and percentages given to illustrate typical ranges of time spent sitting, standing and walking:

A. Rainy day where worker is digging out clogged ditches and drains: Standing and walking using hand tools 45% each. Sitting and driving 50%.

B. Snow day: Sitting and operating snow removal equipment normally assigned to the CEO 1, 90%, walking, standing and checking out equipment 10%.

C. Crack sealing: Standing and walking 95% of the day.

D. Chip sealing: Standing, operating trucks, loader, and spreader 80 to 90% of the day.

E. Paving: Operating trucks, loaders and working on paver 45% of the day. Standing and walking raking and shoveling 45% of the day.

F. Litter pickup/patrol: Lifting, walking and climbing in and out of vehicle 95% of the day.

G. Flagging/Pilot Car/Lane Closure Operations: Standing, twisting, turning and sitting 95% of the day.

Lifting (Floor to bench to Floor) – Items listed may be any of the following but not limited to: tire chains for vehicles that may weigh as much as 75 lbs. per chain. In the winter months these could be handled on an every day basis; a post driver which

POSITION DUTY STATEMENT

DOT PM-0924 (REV 01/2025)

weighs approximately 60 lbs.; assist with the loading and unloading of a tire on a rim which can weigh over 75 lbs. Another example of lifting is shoveling asphalt. Each shovel full lifted weighs approximately 15 lbs., and 1,000 to 1,500 lbs. of sand or asphalt per day, would normally be lifted. 80% of this lifting would be floor to waist and 20% lifted above the waist. Installing marker post, at least two feet into the ground, requires lifting up and pulling down the 60 lb. driver 10 to 150 strokes per post, worker could install up to 40 markers per day.

Another type of lifting is light pickup – loading garbage bags with litter, which requires continuous bending and lifting.

Moving Material – Incumbent may be required to move bagged/boxed material, which can weigh from 50 to 100 lbs. Material may be moving from storage areas to vehicles and from vehicles to job sites, which may be on uneven terrain. Tools are carried a few feet to 100 yards and weigh a few ounces to 50 lbs. each. Tools carried include picks, hoes, rakes, hoses, signs, standards, flags, and cones, guide posts, etc. and may be carried on uneven terrain. Incumbent should ask for assistance when moving items over 50 lbs.

Overhead reaching – Overhead work includes pulling yourself up into many types of equipment from 0 to 30 times per day, pruning, holding up signs off a ladder, servicing equipment on the lube hoist, signaling other workers, and throwing/loading material in equipment.

Other Reaching – Setting cones, lubing and checking equipment, raking, shoveling, driving, using digging bar, shifting, holding signs picking up cones; often done on a continuous basis, over 60% of the work shift.

Pushing/Pulling – Shoveling, opening garage doors, hooking up trailers; installing plows, sanders, kettles, pulling on hoses, working cranks on equipment stands; tightening and loosening nuts on bolts. Installing and removing tires and chains; pulling down on post drivers. Pulling brush and limbs, animal carcasses, and pulling chains.

Twisting - The Operator twist while driving equipment and does so on a continuous basis, especially while backing up or turning around while operating a pilot car. Other twisting is done while dragging brush, shoveling, raking and setting down and picking up traffic cones which weigh 10 lbs.

Climbing/Balancing – Climbing is done in and out of equipment, up and down banks and used in fine manipulation of a chain slopes, ladders, stairways, (often with a load of material or supplies); onto steps and walkways to do engine checks on equipment. One example would be to climb on a heavy equipment trailer to secure the load with chain binders.

Bending/Crouching/Squatting/Crawling – The Operator often bends continuously throughout the day while operating equipment and performing physical labor. All of these activities are necessary when picking up and laying down tools and material. The Operator also crawls around and underneath equipment while checking and servicing equipment, putting on or removing snow chains and tightening or replacing blades on equipment.

Simple Grasping – This activity is necessary about 95% of the shift; climbing in/out and around equipment, operating equipment, using hand tools and handling materials.

Fine Manipulation – This occurs less than 2% of a day and usually while writing reports or manipulating the knobs and levers on the equipment. A higher percentage of the time would be saw or similar equipment.

Importance of hearing and sight – both are essential on the job because the operator must hear directions and equipment, and must see in order to perform his/her duty safely.

Hearing should be adequate to hear warning devices used for worker safety, i.e. look out alarm devices, including vehicle horns used to warn employees of eminent danger at the work site. Corrected hearing is acceptable. Sight needs to be corrected to the State of California Department of Motor Vehicles standards for safe vehicle driving. Night vision must be good for safety when working after dark.

WORK ENVIRONMENT

Required to work in a wide range of sometimes-extreme conditions, including heat, cold, strong winds, rain, sleet, and snow. This includes heat up to 120 degrees and cold temperatures to -15 degrees.

Incumbent may be scheduled to work the night shift during the months of November, December, January, February, March and April or as scheduled by the Maintenance Supervisor. May be required to work overtime which may include weekends and holidays, due to storms, emergencies, special work projects, or when the Supervisor deems that it is in the best interest of the State to work overtime. The incumbent will be on the 9/80 work schedule. Please note that the schedule may change at the discretion of the District Management and/or Supervisor.

Personal safety requirements include:

- A. Work boots, in good and sturdy condition, must be worn to provide foot and ankle support protection.
- B. Either long or short sleeved shirts provided by Caltrans, or a safety vest is to be worn over non-safety shirts or coats.
- C. Long pants.
- D. Safety gear including; hard hat, safety glasses, hearing protection devices, face shields, gloves, respirator, chaps, or other safety gear provided by Caltrans must be worn when required.

Some crews are designated travel crews and work out of town on a per diem basis up to 80% of the year.
