The program includes responsibility to conduct Privacy Impact Assessments (PIAs) and Business Impact Assessments (BIAs to be conducted in conjunction with CTO staff) on all classified data and threshold analysis. Quarterly reporting and remediation will occur throughout the program's maturity phases and onward. Data classification program formulation and its application to all Department data will be a critical element to ensuring the Departments success in implementing a mature information protection practice strategy. Risk and Privacy compliance documentation (SIMM 5305-F & 5310-C) activities shall be completed in a timely customer supportive timeline, as shall all other cyclical review programs for compliance activities. |                                               |

| The statements contained in this job description reflect general details as necessary to describe the principal functions of this job. It should not be considered an all-inclusive listing of work requirements. The incumbent of this position may perform other duties (commensurate with the classification) as assigned, including work in other functional areas to cover during absences, to equalize peak work periods, or to otherwise balance the workload. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |             |
