Client Services
Information Security Engineering
Software Engineering
System Engineering

Percentage and Essential/Marginal Functions:

POSITION DUTY STATEMENT

40%	System Support (E) Acts as a lead in IT projects, providing support that ensures the successful implementation and ongoing operation of technology solutions across various platforms, emphasizing security and data integrity. Ensures comprehensive system support across various technology platforms, emphasizes the importance of security, data integrity, and end-user computing solutions. Leads in developing and maintaining comprehensive documentation and training materials to support the efficient use and troubleshooting of IT systems, including aspects of hardware, software, data management, and end-user computing.
30%	End User Support (E) Analyzes end-user support needs, providing efficient resolutions to hardware and software issues. Functions as a team lead in the management of support tickets, ensuring they are resolved in accordance with Service Level Agreements (SLAs) to maintain optimal levels of customer satisfaction. Configure, deploy, maintain, troubleshoot, and survey out the Department's end-user devices. Utilizes enterprise tools to remotely manage hardware, deploy, and install standard/specialized departmental software. Manages tickets associated with hardware and software requests from stakeholders.
15%	System Design, Deployment, Maintenance, and Monitoring (E) Develops and implements solutions within IT system design, deployment, maintenance, and monitoring to ensure systems operate optimally and reliably. Troubleshoots, tracks, and conducts root cause analysis of system and operational issues. Makes recommendations on improvements based on research and analyses of system performance, collaborating with development teams on cloud and DevOps initiatives, and ensuring up-to-date system documentation and robust security practices.
10%	Vendor and Contract Support (E) Participates in the development, review, and recommendation of Statements of Work (SOW) for vendor engagements. Analyzes and supports procurement activities and contract renewals, ensuring they align with state regulations and policies and meet the organization's technology, security, and software needs.
5%	Other Assigned (M) Adapts to additional tasks or projects as needed, contributing to advance divisional objectives and enhance the operational efficiency of IT services. Flexibility and engagement are essential in supporting the dynamic needs of the IT Infrastructure
