MACHINES, TOOLS, EQUIPMENT, AND WORK-AIDS: The incumbent may at any time utilize a computer, a printer, a telephone, vertical filing cabinets, copy machines, shredder, fax machine, typewriter, and the usual office supplies.

GENERAL POST ORDER ADDENDUM

General requirements: Incarcerated persons/patients with disabilities are entitled to reasonable modifications and accommodations to CDCR policies, procedures, and physical plant to facilitate effective access to CDCR programs, services, and activities. These modifications and accommodations might include, but are not limited to, the following:

- Measures to ensure effective communication (see below);
- Housing accommodations such as wheelchair accessible cells, medical beds for incarcerated persons/patients who cannot be safely housed in general population due to their disabilities, dorm housing, or ground floor or lower bunk housing;
- Health care appliances such as canes, crutches, walkers, wheelchairs, glasses, and hearing aids;
- Work rules that allow the incarcerated person/patient to have a job consistent with his/her disabilities. Medical staff shall provide appropriate evaluations of the extent and nature of incarcerated persons' disabilities to determine the reasonableness of requested accommodations and modifications.

Equally Effective Communication: The Americans with Disabilities Act (ADA) and the *Armstrong* Remedial Plan require CDCR to ensure that communication with individuals with disabilities is equally effective as with others.

- Staff must identify incarcerated persons/patients with disabilities prior to their appointments.
- Staff must dedicate additional time and/or resources as needed to ensure equally effective communications with developmental disabilities. Effective communication measures might include slower and simpler speech, sign language interpreters, reading written documents aloud, and scribing for the incarcerated persons/patient. Consult the ADA Coordinator for information or assistance.
- Staff must give primary consideration to the preferred method of communication of the individual with a disability.
- Effective communication is particularly important in health care delivery settings. At all clinical contacts, medical staff must document whether the incarcerated persons/patient understood the communication, the basis for that determination, and how the determination was made. A good technique is asking the incarcerated person/patient to explain what was communicated in his or her own words. It is not effective to ask "yes or no" questions; the incarcerated person/patient must provide a substantive response indicating understanding of the matters that were communicated.
- Staff must obtain the services of a qualified sign language interpreter for medical consultations when sign language is the incarcerated persons/patients' primary or only means of communication. An interpreter need not be provided in an incarcerated person/patient knowingly and intelligently waives the assistance, or in an emergency situation when delay would pose a safety or security risk, in which case staff shall use the most effective means of communication available such as written notes.

DECS: The Disability Effective Communication System (DECS) contains information about incarcerated persons/patients with disabilities. Every institution has OECS access and staff must review the information it contains in making housing determinations and providing effective communication.

Housing restrictions: All incarcerated persons/patients shall be housed in accordance with their documented housing restrictions such as lower bunks, ground floor housing, and wheelchair accessible housing, as noted in DECS and their central and medical files. All staff making housing determinations shall ensure that incarcerated persons/patients are housed appropriately.

Prescribed Health Care Appliances (including dental appliances): Staff (health or security) shall not deny or deprive prescribed health care appliances to any incarcerated person/patient for whom it is indicated unless (a)

076-211-2183-xxx

a physician/dentist has determined it is no longer necessary or appropriate for that incarcerated person/patient, or (b) documented safety or security concerns regarding that incarcerated person/patient require that possession of the health care appliance be disapproved. If a safety or security concern arises, a physician, dentist, Health Care Manager, or Chief Medical Officer shall be consulted immediately to determine appropriate action to accommodate the incarcerated person/patient's needs.

SPECIAL PERSONAL CHARACTERISTICS

- Influence, change, and strengthen the community. Set an example each day through positive and pro-social role modeling, utilizing dynamic security concepts through observation and building rapport.
- Willingness to play a significant role in the collaborative efforts toward rehabilitation and public safety enhancement.
- Ability to facilitate conversations as a coach and mentor, engaging in a respectful and understanding manner.
- Ability to build trust, improve communication, and assist with the transformation of correctional culture.

SPECIAL REQUIREMENTS

- CDCR does not recognize hostages for bargaining purposes. CDCR has a "NO HOSTAGE" policy, and all incarcerated people, visitors, non-employees, and employees shall be made aware of this.

CONSEQUENCE OF ERROR

- Example: Consequences of error may result in loss of time and could cause significant delays in program production. Such delays can result in inefficient use or misdirection of department resources resulting in the inability to meet efficiency and timeline goals, and varying degrees of negative financial impacts to the department.
