Classification Title Environmental Scientist	Division Compliance
Working Title Environmental Scientist	Office/Unit/Section/Geographic Location Compliance Inspection Branch/SoCal Office/LA South Unit
Position Number 592-320-0762-064	Name and Effective Date VACANT

General Statement: Under the supervision of the Senior Environmental Scientist (SES) (Supervisory) in the LA South Unit (Unit), within the SoCal Office (Office), part of the Compliance Inspection Branch (Branch), part of the Compliance Division (Division), within the Department of Cannabis Control (Department), the Environmental Scientist (ES) will perform scientific fieldwork and compliance evaluations across all licensed cannabis facilities. The incumbent will be responsible for verifying that licensed facilities are operating in accordance with applicable statutes, regulations, and environmental protection requirements. The incumbent will conduct onsite inspections, technical assessments, and may participate in investigations within an assigned geographic area. The incumbent may also be required to perform coordinated fieldwork and investigations with other governmental agencies, as needed. The geographical location for this position is located within Southern California; however, may be required to conduct business throughout the State of California (State). Duties include, but are not limited to, the following:

A. Specific Assignments [w/ Essential (E) / Marginal (M) Functions]

40% (E) Inspections

Travel to various locations within an assigned geographical area to conduct routine on-site inspections of all licensed cannabis facilities. Evaluate regulatory compliance with commercial cannabis and environmental laws, identify areas of non-compliance, and document environmental risks. Observe and assess operational practices, environmental conditions, product handling and storage, transport procedures, and adherence to regulatory requirements. Record and evaluate observations, environmental measurements and site data using field tools, digital instruments, and Geographic Information System software as appropriate.

Develop and transcribe clear, concise post-inspection reports, including photographs, maps, diagrams, and other documentation to support follow-up compliance actions. Identify potentially fraudulent activity, diversion, and/or operational discrepancies if observed, and refer as appropriate to Investigative Services Branch staff. Participate in coordinated inspections and/or search warrants with investigative and/or law enforcement as required. Communicate findings to licensees, stakeholders, and Department staff regarding environmental and operational compliance expectations and requirements.

35% (E) Records and Scientific Compliance Evaluation

Review records, environmental compliance histories, facility operations, inventory records, California Cannabis Tracking System data, and field data to evaluate licensee adherence to environmental and commercial cannabis regulations. Assess and review documentation related to water usage, waste management, pesticide application, storage, transport, and other environmental and operational programs to ensure compliance with applicable laws and regulations. Apply scientific methods and evidence-based evaluations to identify non-compliance, operational risks, and/or potential environmental impacts and recommend corrective actions and/or administrative measures to bring Department licensees into compliance.

Develop and transcribe clear and accurate reports documenting findings and compliance determinations for review by Unit leadership and for use in administrative proceedings and/or hearings, as applicable. Coordinate with investigative and regulatory partner agencies when environmental and/or operational issues intersect with broader compliance matters.

15% (E) Communication, Coordination, and Education

Collaborate with Federal, State, and local stakeholders, including the California Department of Fish and Wildlife, State Water Resources Control Board, Department of Pesticide Regulation, County Agricultural Commissioners, CalRecycle, and other relevant regulatory authorities, to address environmental and operational compliance issues across all licensed cannabis facilities. Establish and maintain cooperative relationships within the Department and with external agencies to ensure standardized processes, effective communication, and consistent application of commercial cannabis laws and regulations.

Provide clear guidance to Department licensees and industry representatives regarding environmental and operational compliance expectations, incorporating scientific reasoning and evidence-based practices to support sustainable and safe operations. Participate and develop educational and outreach programs, including seminars and workshops for licensees, applicants, and cannabis industry representatives, to promote voluntary compliance, environmental stewardship, and adherence to operational regulations. Document communications, guidance, and outreach activities for record retention in Department archives to support consistent compliance oversight and follow-up actions.

5% (E) Administration

Coordinate, plan, and schedule logistics for inspections and field visits to maximize efficiency. Maintain accurate records of site visits, compliance actions, reports, travel, and equipment usage. Ensure reliability and proper maintenance of assigned vehicles and equipment. Prepare end-of-month reports, mileage logs, and weekly activity reports to keep leadership informed of operational progress.

5% (E) Professional Development

Participate in professional development trainings, as well as tasks, meetings, and activities that support programmatic and workplace diversity, equity, and inclusion.
