STATE OF CALIFORNIA
DEPARTMENT OF FORESTRY AND FIRE PROTECTION
POSITION ESSENTIAL FUNCTIONS DUTIES STATEMENT
PO-199 (06/16)

Working Title of Position
Remote Sensing Intelligence Specialist

Division and/or Subdivision
Fire Protection Operations / Fire Intelligence / Remote Sensing

INSTRUCTIONS: The Director is required by Government Code Section 19818.12 to report (or to record) "…material changes in the duties of any position in his or her jurisdiction". The Position Essential Functions Duties Statement is used for this purpose. Enter identifying information and effective date at the right. Enter brief description of each of the important duties and responsibilities of the position below. Group related duties in numbered paragraphs and indicate the percentage of total time occupied. Indicate the "essential functions" of the position by placing an asterisk (*) in front of those individual duties you determine to be essential to the job. Discuss the duties with the employee assigned to the position. Both the employee and supervisor sign the document where indicated. The supervisor retains the original document and provides a copy to the employee.

Location of Headquarters
Mather – McClellan

Class Title of Position
Research Data Specialist I

Position Number
541-061-5742-006

Effective Date
10-01-2026

Percentage of Time Required	Effective on the date indicated, the employee assigned to the position identified above performs the following duties and responsibilities.
	Under the general direction of the Research Data Manager I, the incumbent shall perform the following duties:
40%	*Operate as a Mission Sensor Operator (MSO) aboard CAL FIRE Intel aviation assets supporting Incident Awareness and Assessment (IAA), natural resource management, and other remote sensing needs for CAL FIRE. *Collect, process, analyze, and deliver timely, accurate, and operationally trusted geospatial intelligence products derived from remotely sensed data using the Esri ArcGIS software ecosystem. *Perform assigned duties within the confined workspace of general aviation aircraft while operating under dynamic flight conditions. *Develop Remote Sensing collection plans by analyzing mission objectives and applying technical judgment to determine appropriate collection strategies, flight parameters, sensor configurations, and other operational considerations necessary for crewed aircraft imagery collections. *Ability to coordinate collection efforts effectively across functional disciplines including pilots, maintenance staff, and Fire Operations personnel to ensure mission objectives are executed safely and efficiently.
20%	*Provide GIS support to Department personnel through complex spatial analysis, technical research, data gathering, statistical analysis, and interpretation of geospatial information utilizing multiple modalities of data. *Prepares static maps and web GIS applications to present findings.
	*These are the essential functions for this position. Essential functions are those functions that the individual who holds the position must be able to perform unaided or with the assistance of a reasonable accommodation.

Equal Employment Opportunity (EEO) Statement: All CAL FIRE employees are expected to conduct themselves in a professional manner that demonstrates respect for all employees and others they come in contact with during work hours, during work related activities, and anytime they represent the department. Additionally, all CAL FIRE employees are responsible for promoting a safe and secure work environment free from discrimination, harassment, inappropriate conduct, or retaliation.

Job qualifications and/or conditions of employment: See Page 2
